Ithaca, NY 14580

Dear David,

This is a long overdue note to let you know how pleased we are with the patio and planting that were installed last fall at our cottage at Kendal.

Hannah Rasmussen was a joy to work with and exceeded our expectations throughout the project. It was immediately obvious that she cares deeply about her work and has excellent interpersonal skills which made the process move forward smoothly.

We were impressed with her aesthetic sense and her innovative and fluid approach to the design of the garden as well as her knowledge of plant materials including some obscure cultivars.

She was able to accommodate our planting requests and needs as the project evolved and worked creatively to provide a beautiful finished design.

We have shared our positive experiences with Hannah and Cayuga Landscape with other Kendal residents as well as friends in the community.

Thanks for enhancing our outdoor space and experience !

Sincerely,

Garden Design Client at Kendal
